## Important

These accessories are to be installed in accordance with the current IEE wiring regulations.

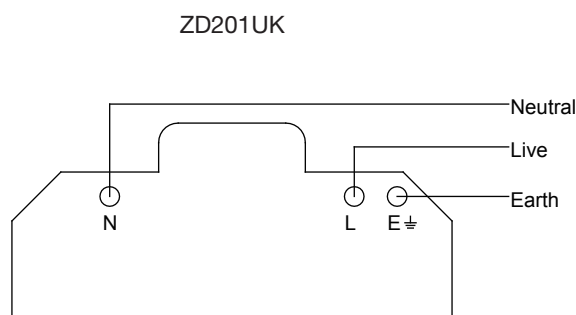

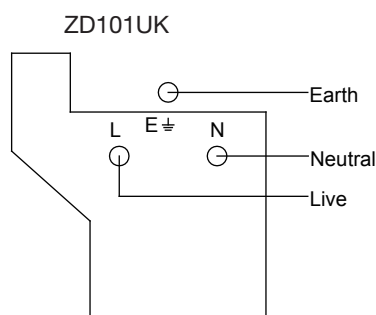

### **WARNING: FOR METAL PLATES ONLY!**

The Plastic Wall Gasket **MUST BE FITTED** if provided, to prevent any chemical reaction.

## Installation procedure

1. For additional safety, remove the fuse or switch off the circuit breaker of the circuit concerned at the fuse box.
2. Loosen the terminal screws.
3. Before fitting, check for damaged cable insulation.
4. Insert the "Red" or "Brown" insulated conductor into the terminal marked "L".  
 The "Black" or "Blue" insulated conductor into the terminal marked "N".  
 The "Green/Yellow" insulated two way switching loop in loop out.  
 Alternative two way switching into the terminal marked "E".
5. Tighten all terminal screws.
6. Fix the socket into wall by means of 2 mounting screws provided.

**These accessories must only be installed by a competent person.**
