

For use on glass, tiles, formica and finished wood surfaces

För användning på glas, kakel, laminat och behandlade trätor.

For bruk på glass, fliser, plater og behandlede treoverflater.

Voidaan kiinnittää lasiin, kaakeliin, laminaattiin tai käsiteltyyn puupintaan.

Zur Benutzung auf Glas, Kacheln, Laminat und lackiertem Holz.

1. Clean the surface with isopropyl alcohol and ensure it is dry and free from grease or dust.
2. Carefully remove the backing paper – do not touch the adhesive.
3. Mark the required position. Repositioning will destroy the adhesive.
4. Press firmly into position and leave at least 3 hrs before use.

Note: Because surface conditions and application are beyond our control we suggest that the use of these hooks to hang glass framed pictures and expensive objects is avoided.
